

Panomera® Privacy Shield Upgrade Kit

Upgrade of a Panomera® S 4/8 with a remote controlled shield for simple, cost-effective and recognizable deactivation of image acquisition

The Panomera® Privacy Shield has been specially developed for the simple, cost-effective and clearly recognizable **deactivation of the image acquisition of a Panomera® S 4 or 8.**

Areas of Application

The use of the Panomera® Privacy Shield is recommended if the **regulations of the GDPR or the right of assembly** require the deactivation of image acquisition. This can be the case in urban areas, for example, if the monitored area is to be used temporarily for **events or demonstrations.**

System

The Panomera® Privacy Shield is integrated between the front glass and the lens sensor units of the Panomera® System. As soon as the aperture is lowered, **image acquisition is mechanically prevented and clearly indicated to the outside by a well recognizable signal color.**

Remote Control

The Panomera® Privacy Shield is connected to an Ethernet I/O interface as a contactor and can thus be **remotely controlled directly and independently via the network.** The recommended **Remote Ethernet I/O Interface (MOXA ioLogik E1214)** allows the connection of **up to two Panomera® systems** with individual aperture control (individually open and closed). In case of common control (individually open and jointly closed), **up to four Panomera® systems** can be connected.

Efficiency

The Panomera® Privacy Shield can be used at any time and for a **precisely defined period of time.** Unwanted downtimes due to cost-intensive measures directly at the installation site are completely eliminated. The deactivation of image acquisition can be **tailored exactly to the duration of an event.**

Compatibility

The Panomera® Privacy Shield Upgrade Kit is suitable for upgrading the following Panomera® models:

- Panomera® S8 190/30 DN Ultraline
- Panomera® S8 184/45 DN Ultraline
- Panomera® S8 178/22 DN Topline
- Panomera® S8 115/30 DN Topline
- Panomera® S8 87/45 DN Topline¹⁾
- Panomera® S8 43/90 DN Topline
- Other models on request

Scope of Delivery

The Panomera® Privacy Shield Upgrade Kit consists of a complete front frame with integrated shield. This allows the easy replacement of a conventional front frame.

- Front frame with front glass
- Integrated shield with servo motor
- Weatherproof control cable 5m
- Seal and screws for front frame

1) Direct display of the overview module results in shadows (vignetting) in the lower image area. These are due to the construction and do not represent a defect.
